

PILOT MODULAR CHOIR RISERS

FLEXIBLE. COMPACT. MADE TO PERFORM.

The **PILOT Choir Riser System** is a versatile, modular staging solution designed to grow with your performance needs. Proudly Australian-made, the PILOT system allows you to start with a single podium—suitable for 4–5 performers—and expand effortlessly to support large choirs of 200+ across multiple tiers.

Ideal for schools, performance venues, religious gatherings, and community events, the PILOT Choir Riser system combines smart design with lasting durability. Each unit is lightweight, compact for storage, and simple enough to set up and pack down by just one person—making it a practical, long-term solution for dynamic performance spaces.
